

I am writing to appeal for my family's all time favorite radio station - K-Love that we hear on 107.1. My home and car radio are tuned to this station. I became captivated by K-Love when my 18 year old son was diagnosed with a brain tumor. K-Love totally brought my family through some very hard months. That was in 1997 and we have been constant listeners ever since.

K-Love is listener supported and has no commercials -- this is very important to my family. WE do not have cable TV and do not pay for TV. But -- we contribute \$40.00 monthly to K-Love - as it is a life-changing channel that offers clean, uplifting family entertainment.

We believe in K-Love and that is why we send a monthly contribution so that others can hear uplifting music that has Godly and praise lyrics --- not the smut that many stations play. PLEASE -- allow K-Love to remain on my radio and a life-changing option for new listeners.

Thank YOU for your support of the stations in my area that play k-Love 107.1, 100.9 and 92.9. P.S. -- my son is not 26 and just graduated from college. The brain tumor was not able to be removed due to the location -- but GOD has miraculously brought him through all this to a life with no symptoms. WE thank GOD -- daily for HIS grace.

Sincerely,  
Wendy McCormick
